Notebooks with  
personality

## The World of Dingbats\*

My great-great-grandfather established one of the first paper shops in the early 19th century, trading high-quality paper more or less continuously from then until the present day. I passionately believe that there's still a place for this most traditional of materials in today's high speed, digital world. Sometimes you need something that's more tactile - more personal.

Our brand new range of Dingbats\* Notebooks are designed with a fastidious eye for detail and come in a wide variety of sizes, formats and colour combinations.

There is a Dingbats to suit every need - in school, in the office, at home, or simply for personal use. Browse through this booklet and choose the one that reflects your own personality.

## Dingbats\* is Green

We make sure that there is no nasty stuff in our notebooks – even the water used to produce our paper is returned to the rivers cleaner than when it was taken out.

We use degradable and recyclable materials and only FSC certified paper. Dingbats\* are biosafe because we enjoy being part of nature. We're 100% vegan certified too!

For its UK sales, Dingbats\* Notebooks Ltd donates 2% of its revenue to WWF-UK, a charity registered in England and Wales (1081247).

## Wildlife Collection
